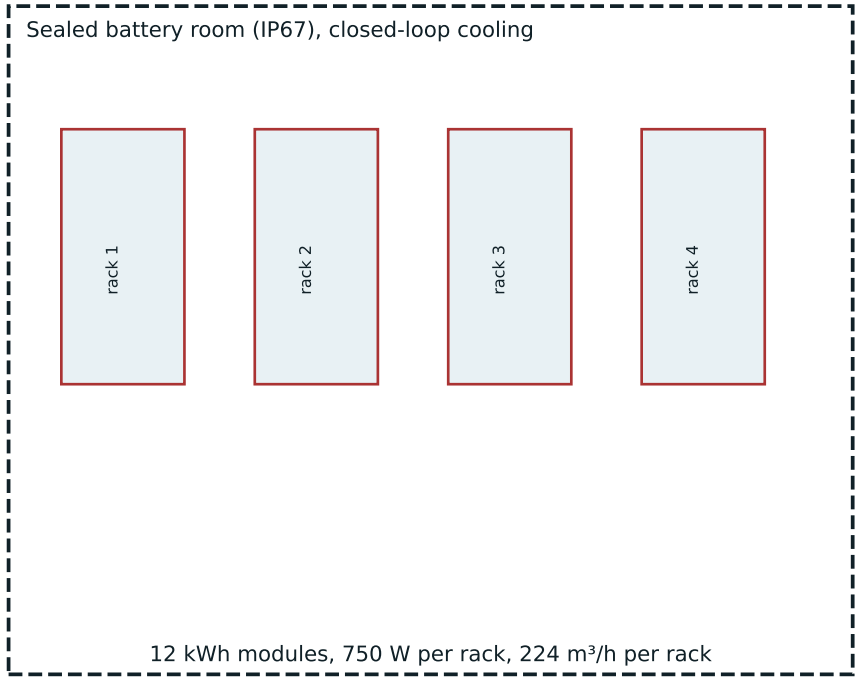
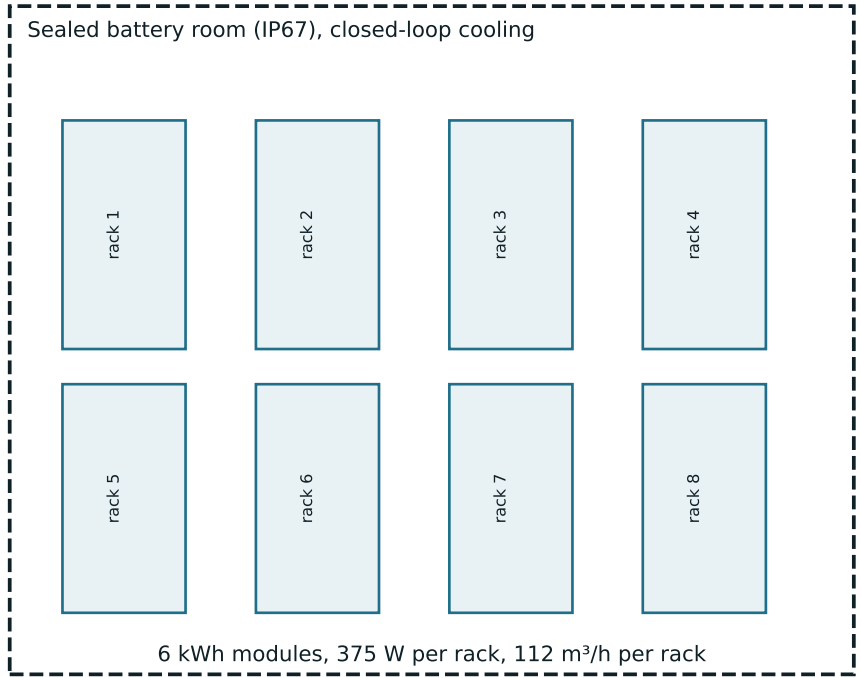
Battery room: rack layout options

Schematic plan, not to scale (docs/energy-management-architecture.md, weights/energy-budget.json)

Option A: four racks, packed



Option B: eight racks, spread (recommended)



Recommendation for review: option B (air gaps between racks; halves heat and airflow per rack). Module size to be confirmed against products.

CONCEPT - NOT FOR CONSTRUCTION. Open design release, Class 1: concept and educational release. Licence to be confirmed.
